LATIN AMERICAN STUDIES

Masters of Arts Degree

Latin American Studies integrates teaching, research, and policy analysis, encouraging students to develop interdisciplinary perspectives and to work actively with faculty on research projects and conferences.

UC San Diego is ideally located near the Pacific Ocean, the U.S.-Mexico border and the Pacific Rim. Our diverse student population is drawn from the best and brightest worldwide. Discover how an education at UC San Diego can be the gateway to your future.

Our large and diverse faculty allow you to explore your interests and build almost any specialization, including immigration, human rights, history, public health, political activism, sex workers and prisoners, elections and corruption, climate change, drugs and violence, citizenship, indigenous populations, social movements, gender studies, education, international trade, and many more!

_“The MA program gave me the opportunity to dip my toes into the waters of multiple disciplines and figure out which one I liked best before plunging into a Sociology Ph.D. It also gave me a well-rounded understanding of Latin America that I never would have developed in a single discipline. I continue to draw on those insights in my work 16 years later.”_
